

# Industrial Taping & Labeling Solutions

We Are Dispensers

## PRODUCT QUICKVIEW

### zcM1000®

- For medium to high production applications
- Program a defined length
- LED digital length setting
- .28" to 2" in tape width
- .79" to 39" in cut length

### TDA080

- Heavy-duty construction
- Auto feed and cut
- .25" to 3.15" in tape width
- 1.6" to 394" in cut length
- Programmable memory available with "TDA080-M"

### TDA150

- Heavy-duty construction
- Auto feed and cut
- .25" to 5.9" in tape width
- 1.6" to 394" in cut length
- Protective films and foil tapes with "TDA150-NM"

### zcM1100

- Safety guard system prevents injuries
- Auto feed and cut
- .28" to 2" in tape width
- 1.2" to 39" in cut length

### TDA080-NS

- For foam and VHB tapes
- Auto feed and cut
- .25" to 3.15" in tape width
- 1.6" to 394" in cut length
- Heavy-duty construction

### TDA025B

- Electric carousel tape dispenser
- Ideal for multi-operator applications
- .12" to .98" in width
- .6" to 2.76" in length

ELECTRONIC TAPE DISPENSERS  
INDUSTRIAL HEAVY-DUTY AUTO FEED & CUT

### LD3000

- For small labels and small work areas
- Photosensor accuracy
- .25" to 2.25" in label width
- .25" to 3" in label length
- Battery option available
- Made in U.S.A.

### LD6050

- For most labels (barcodes, packaging, etc.)
- Built-in hanging capability
- .25" to 4.75" in label width
- .5" to 6" in label length
- Faster "LD6100" available
- Made in U.S.A.

### LD8100

- For long packaging type labels
- .25" to 5" in label width
- .5" to 12" in label length
- Feed Speed is 7.8"/sec
- Made in U.S.A.

### LD3500

- For small challenging clear labels and small work areas
- Photosensor accuracy
- Built-in hanging capability
- .25" to 2.25" in label width
- .25" to 4" in label length
- Made in U.S.A.

### LDX6050

- For wider packaging type labels
- Built-in hanging capability
- .25" to 7" in label width
- .5" to 6" in label length
- Faster "LDX6100" available
- Made in U.S.A.

### LDX8050

- For long, wide packaging type labels
- .25" to 8" in label width
- .5" to 12" in label length
- SuperSpeed "LDX8100" available (7.8"/sec)
- Made in U.S.A.

ELECTRIC LABEL DISPENSERS  
AUTO PEEL & ADVANCE WITH PHOTOSENSOR

## LIGHT-DUTY TAPE DISPENSERS

### zcM0300

- For low volume production
- Manual definite length tape dispenser
- .25" to 1" in tape width
- .5" to 4" in tape length with a single pull

### zcM0800

- Entry level dispenser for low to medium production with thin film tape
- Auto advance when tape is pulled
- .25" to 1" in tape width
- 3 fixed lengths: 1.2", 1.8", and 3.5"

## NON-ADHESIVE CUTTERS

### TBC50

- Heavy-Duty, Cold Cut
- Auto dispenses, measures, and cuts non-adhesive materials
- Cuts tubing, sleeving, Nomex®, Velcro®, ribbon, etc.
- Up to 4.3" wide material
- High speed operation

### TBC50-H

- Heavy-Duty, Hot Cut
- Auto dispenses, measures, cuts, and heat seals non-adhesive materials prone to fraying
- Cut ribbon, belting, webbing, sleeving, strapping, rope, etc.
- Up to 3.54" wide material
- High speed operation

## SPECIALTY DISPENSERS

### LR4500

- Label rewriter for labels dispensed from thermal transfer printers or reels
- .25" to 4.5" liner width
- LR4500W available for 7" max liner width
- Bidirectional with two speeds
- 9" OD max roll capacity
- Made in U.S.A.

### LAB01

- Quickly applies labels to bottles, cans and jars
- Places labels in the same location for consistency
- Adjusts to accommodate .5" to 6.5" diameter cylinders
- Made in U.S.A.
